www.galior.com

WE WILL DEVELOP FOR YOU

Web store

is current and effective way of selling. Linkage to 1C, warehouses, automatic pricing and so on help to decrease time expenditures and to optimize the work of the company.

Corporate Site

makes presentation of a good or service to a client, allows to make an order or to contact an advisor, contains useful information for working stuff, partners and clients. For the closed format it may contain integration with inner PS and CMR-systems.

Landing pages

Aim on productive online selling or selling sphere extension. They will tell your potential clients about product and also motivate them to make a purchase.

Portal of Web service

Big web resource with news, supplemental information. With efficient propagation such project will bring profit from ads placement or performing some online services.

Logo and corporate style

are those elements which will make your company or site recognizable among your competitors. Efficiently developed logo and corporate site will bring your business additional weight on the market.
